

EMERSON IMPLEMENTEURS STEWART

Emerson Stewart is a progressive and ASX listed group that provides environmental, engineering, project delivery and specialist consulting services to bluechip clients across the resources, infrastructure and energy sectors

Principal Civil Engineer

Background

Due to organic growth we are seeking to appoint a Principal Civil Engineer with Urban Development experience in our successful Perth based business.

Position Requirements

The primary objective of this role is to conduct engineering design and project management assignments in urban development areas such as subdivisions, sewer & storm water, drainage and urban road design across a range of high end projects.

To be successful in this role you will have 10 years + experience in land development engineering, tertiary qualifications in civil engineering discipline, excellent report writing & communication skills, project management capabilities and the ability to work in a team environment to deliver high quality engineering to our clients.

The ideal candidate will be a highly driven individual with attributes such as, attention to detail, professionalism and a positive attitude. You must be Australian citizen or hold the correct visa to work in Australia to be considered for this role.

An attractive remuneration package will be offered. Please forward your Resume attention to Team+ Advisor at careers@emersonstewart.com. All applications will be treated 'in confidence' to protect the privacy of candidates.
