Engineering Opportunities –

Oil & Gas

Due to significant expansion of the Oil and Gas and Industrial Chemicals Group we are seeking to appoint the following roles into our successful Perth based business:

- » Project Director
- » Project Manager
- » Project Engineers

If you are suitably qualified and have worked in a similar role with relevant industry experience we would like to hear from you. In return an attractive remuneration package will be offered along with the opportunity to work on exceptional projects with exceptional people for exceptional clients.

Please forward your Resume attention to Team+ Advisor at careers@emersonstewart.com All applications will be treated 'in confidence' to protect the privacy of candidates.
