Through our operating subsidiaries we provide our clients with results orientated; environmental, spatial, engineering, project delivery and specialist consulting services across the infrastructure, resources and energy sectors

Project Controls

Due to expansion of the business seeking to appoint a Project Controls Manager into our successful Perth based business.

This position will form part of a core team that will service a number of Emerson Stewart clients, with high end project control consulting services. The primary function of the role is to independently analysis current project status and implement effective project control strategies and solutions for maximum project delivery.

To be successful in this role you will have 10+ years experience in a similar position and have a strong understanding of consulting in the mining and minerals industries. As well as have relevant tertiary qualifications, excellent attention to detail and an ability to work in a dynamic, success driven team in order to deliver first class solutions to clients.

You must be Australian citizen or hold the correct visa to work in Australia to be considered for this role.

An attractive remuneration package will be offered. Please forward your Resume attention to the Team+ Advisor at careers@emersonstewart.com All applications will be treated 'in confidence' to protect the privacy of candidates.
