STEWART

[www.emersonstewart.com](http://www.emersonstewart.com)

Emerson Stewart is an Australian results orientated; environmental, engineering, project delivery and specialist consulting services across the infrastructure, resources and energy sectors.

## Principal / Lead Engineer/ Senior Engineer

### - Water Process

Due to expansion of the business seeking to appoint a Principal Water Process Engineer into our successful Perth based business.

The role is responsible for providing technical leadership and implementing new technologies on a range of design projects in areas such as water treatment, waste water treatment, reuse, desalination and water quality. The position will also be required to assist in strengthening existing and new client relationships, and mentoring the team.

To be successful in this role you will have 12+ years experience in a consultative environment with relevant tertiary qualifications in chemical or process engineering, excellent report writing and an ability to work in a dynamic, success driven team in order to deliver first class solutions to clients.

An attractive remuneration package will be offered. Please forward your Resume attention to Team+ Advisor at [careers@emersonstewart.com](mailto:careers@emersonstewart.com)

All applications will be treated 'in confidence' to protect the privacy of candidates.

You must be Australian citizen or hold the correct visa to work in Australia to be considered for this role.
